Re: Lawrence Hydroelectric Project (FERC No. 2800-054)  
Filing of Updated Study Report

Dear Secretary Reese:

Essex Company, LLC (Essex) is the Licensee, owner, and operator of the Lawrence Hydroelectric Project (FERC No. 2800) (Project or Lawrence Project). The Lawrence Project is located on the Merrimack River in the City of Lawrence in Essex County, Massachusetts. The Project was licensed by the Federal Energy Regulatory Commission (FERC or Commission) on December 4, 1978 (with an effective date of December 1, 1978), and the license expires on November 30, 2028. Accordingly, Essex is pursuing a new license for the Project pursuant to the Commission's Integrated Licensing Process (ILP), as described at 18 CFR Part 5 of the Commission's regulations. Essex has initiated studies and information gathering activities as provided in the Commission's May 10, 2024 Study Plan Determination (SPD) for the Project. In accordance with 18 C.F.R. § 5.15(c), on April 28, 2025, Essex filed the Initial Study Report (ISR) with the Commission, which provided the results of six study reports, and described progress in implementing the study plans and schedule, the data collected, and any variances from the study plans and schedule.

Pursuant to 18 CFR §5.15(f), Essex is filing this Updated Study Report (USR). With this filing, Essex is providing the following eleven study reports for review and comment:

- Upstream Anadromous Fish Passage Assessment
- Desktop Entrainment, Impingement, and Turbine Passage Survival Study
- Sturgeon Distribution and Project Interaction Study
- Diadromous Fish Behavior, Movement, and Project Interaction Study (Phase II)
- Water Quality Study
- Three-Dimensional Computational Fluid Dynamics Modeling (3D CFD)
- Recreation Facilities, Use, and Aesthetics Study
- Sturgeon Habitat Mapping and Assessment Study
- Fish Assemblage Assessment
- Invasive Plants Survey, and
- Downstream Juvenile Alosine Passage Assessment

Additionally, the Phase I Project Operations and Fish Stranding Study will be filed with the Commission by May 1, 2026, or earlier if possible.

The USR describes Essex's overall progress in implementing the study plan and schedule, summarizes the types of data collected to-date, and describes any variances from the study plan and schedule approved by the Commission. The USR also provides an anticipated schedule for study reporting as well as upcoming ILP milestones.

The USR will be made available to resource agencies, Indian tribes, local governments, non-governmental organizations, and members of the public on the Project's distribution list. Electronic copies of the USR will be available on the Project's public relicensing website at <https://lawrencerelicensing.com/> or via FERC's online e-Library system at <http://www.ferc.gov/docs-filing/ellbrary.asp>, by searching Docket Number P-2800.

The Commission's regulations at 18 CFR § 5.15(c) require Essex to hold meetings with participants and FERC staff within 15 days of filing the USR. **Accordingly, Essex will hold USR Meetings from 9 AM to 4 PM on May 6-7, 2026.** The USR Meetings will be held at the Elks Lodge at 652 Andover St, Lawrence, Massachusetts 01843. A virtual call in option is available. More details are provided in the USR.

To allow for adequate planning, Essex respectfully requests that those planning on attending the USR Meeting RSVP by emailing Kelsey Iffert with HDR at [Kelsey.Iffert@hdrinc.com](mailto:Kelsey.Iffert@hdrinc.com) on or before May 4, 2026.

Pursuant to 18 C.F.R. § 5.15(c)(3), Essex will file an USR Meeting Summary with the Commission within 15 days of the USR Meeting. Stakeholders may file a disagreement with the summary and/or any proposals to modify ongoing studies or for new studies with the Commission by June 25, 2026.

If there are any questions regarding the USR, please do not hesitate to contact Kevin Webb at (978) 935-6039 or at [kwebb@patriohydro.com](mailto:kwebb@patriohydro.com).

Sincerely,

**Essex Company, LLC**

Kevin Webb  
Hydro Licensing Manager
